

Pressure measurement

Model 7313 Glycerine filled pressure gauge with stainless steel case

Axial brass male BSPP connection

Specifications

Connection: complies with EN 837-1 male G 1/4"

or G ½" according to ISO 228-I

Temperature range: -20°C to +60°C

Pressure range:

Ø50: -1/0 to 0/250 bar Ø63: -1/0 to 0/1000 bar

Ø100: -1/0 to 0/600 bar

Accuracy: class 1.6 according to EN 837

Material: AISI 304 stainless steel case and brass

connector

Protection rating: IP65

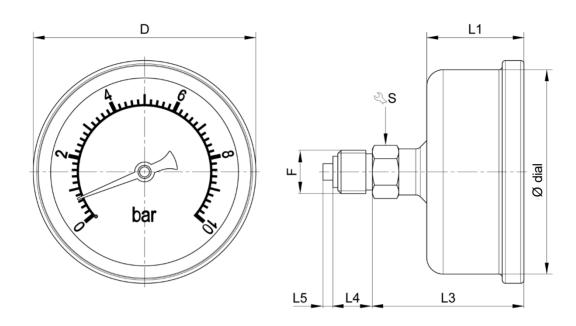

V 1122

^{*}You can order from the low cost range for these models if you add an E to the end of the part number (e.g.: 273133-2E)

Use

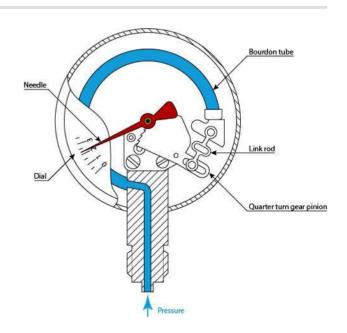

Description

A Bourdon tube pressure gauge works through the movement of the free end of the tube in response to the measured pressure.

When the pressure increases, the tube unwinds and when the pressure decreases the tube winds up around itself.

The free end of the tube is linked to a needle through a mechanical system that converts the tube's movement into needle rotation.

The pressure gauge includes a graduated dial so that the needle points to the measured pressure.

Fluids

Bourdon tube pressure gauges can be used for gaseous fluids and non-aggressive, non-viscous and noncrystallising liquids.

You must check the fluid is compatible with copper alloys (brass).

You can fill the case with glycerine to make sure the gauge is easy to read for applications with very dynamic pressure cycles or vibrations.

Accessories

Here is a list of all of our pressure gauge accessories.

- The pressure gauge can be isolated if you install it on a cock to facilitate maintenance and so that you do not need to purge the piping if you need to carry out maintenance on the measuring instrument.
 - Model 7388: Pressure gauge cock with 316 stainless steel Ti valve and body (including bleed screw)
 - Model 7389: Pressure gauge valve Brass
 - Model **7377**: Pressure gauge valve 316 stainless steel Ti
- If you need to cool the fluid, when the fluid temperature is higher than the pressure gauge's temperature range:
 - Model **7346**: Trumpet form siphon 316 stainless steel
 - Model **7347**: U-form siphon 316 stainless steel Ti
 - Model 7348: High pressure straight siphon 316 stainless steel Ti
 - Model 7304: Cooling fin 316 stainless steel
- If you need to protect the pressure gauge from excess pressure:
 - Model 7349: Pressure limiter 316 stainless steel
 - Model **7350**: Pressure damper 316 stainless steel
- Model 73 I 2: Pressure gauge options:
 - Front or back skirt (axial and vertical)
 - Back fixing bracket (axial)
 - COFRAC calibration certificate

The skirts and brackets cannot be used with the low cost range.

Model 7305: Pressure gauge gasket
